

Plugging into the Future: An Exploration of Electricity Consumption Patterns

Customer journey map

Based on interviews, surveys and observations with everyday electricity consumers

	Become Aware I notice electricity and its impact.	Explore & Understand I learn about my consumption patterns.	Monitor & Analyze I check and analyze my electricity data.	Act & Optimize I take action to use electricity smarter.	Reflect & Compare I see the impact and compare progress.	Share & Influence I share insights and inspire others.						
Steps What is the user doing?	Sees rising bills or hears about energy issues	Becomes curious about personal usage	Searches for info on electricity consumption	Learns about peak times, appliances, costs	Checks usage dashboard or app	Explores trends by time, day, or appliance	Adjusts habits or device usage	Sets goals or automations	Reviews savings or improvements	Compares with past usage or similar homes	Shares tips or results with others	Advocates for smart energy use
Interactions What touchpoints or tools are used?	Utility bill, news, social media, word of mouth	School, community programs, or campaigns	Websites, blogs, videos, infographics	Energy apps, calculators, tools	Smart meter portals, mobile apps	Data visualizations, charts, usage breakdowns	Smart plugs, thermostats, timers	Alerts, nudges, or recommendations	Reports, badges, or summaries	Benchmarks, challenges, leaderboards	Social sharing, community forums	Events, surveys, feedback channels
Goals & Motivations What does the user want to achieve?	Lower electricity bills	Understand personal impact on environment	Learn what drives usage	Find easy ways to save energy	See accurate, real-time data	Identify waste and patterns	Reduce waste and costs	Build better energy habits	Feel proud of progress	Stay motivated with results	Help friends and family save	Contribute to a sustainable future
Positive Moments What delights or satisfies the user?	"Wow, I had no idea!"	Feels concerned in a good way.	"Now I get where my energy goes."	Finds simple tips that make sense	"The data makes it so clear."	Discovers surprising insights	"Small changes, big impact!"	Sees immediate results	"I'm saving money!"	Feels in control and informed	"Others find my tips helpful."	Feels part of a positive change
Negative Moments What causes frustration or confusion?	Ignores or overwhelmed by info	Feels guilty or anxious	Too much technical jargon	Hard to know what applies at home	Data feels confusing or incomplete	App or portal is hard to navigate	Upfront costs of smart devices	Hard to change household habits	Results take too long	Comparisons feel unfair or unclear	Embarrassed to share high usage	Lack of time or interest from others
Areas of Opportunity How can we improve the experience?	Clear, relatable awareness campaigns	Show real stories and local impact	Too simple language and visuals	Personalize explanations and tips	Improve data clarity and accuracy	Make dashboards easy and engaging	Offer affordable solutions	Provide step-by-step guidance and reminders	Celebrate small wins	Benchmark with similar households	Make sharing easy and fun	Build community challenges and recognition
