

Ideation Phase

Brainstorm & Idea Prioritization Template

Date	27 June 2026
Team ID	
Project Name	Plugging into the Future: An Exploration of Electricity Consumption Patterns
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Template

Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

🕒 10 minutes to prepare
👥 1 hour to collaborate
👤 2-6 people recommended

Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

🕒 10 minutes

1

Team gathering

Shah Azwahe
Shah Mubashir Aijaz
Syed Samra Subhana
Chaitanya Kishoreddy

2

Set the goal

Analyse electricity consumption patterns to identify trends and support efficient energy management.

3

Learn how to use the facilitation tools

Apply facilitation tools to support the analysis of electricity consumption patterns.

[Open article](#)

1

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

🕒 5 minutes

How might we identify the main factors affecting electricity consumption patterns?

Key rules of brainstorming

To run a smooth and productive session

🗣️ stay on topic.

💡 encourage wild ideas.

🚫 defer judgment.

👂 listen to others.

🗒️ go for volume.

👁️ if possible, be visual.

Step-2: Brainstorm, Idea Listing and Grouping

2 Brainstorm

Write down any ideas that come to mind that address your problem statement.

10 minutes

TP You can collect a sticky note and write your idea on it to keep it safe and easy to move.

Person 1

Person 2

Person 3

Person 4

Person 5

Person 6

Person 7

Person 8

3 Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

20 minutes

TP Add a sticky note to the group to make it easier to find. You can also use a sticky note to write down a question or a note about the group.

1. Energy-Efficient Technology

- Use LED light bulbs
- Buy energy-efficient appliances
- Install smart power strips
- Install smart electricity meters

2. Renewable Energy

- Install solar panels
- Use renewable energy sources
- Promote rooftop solar systems
- Support clean energy projects

3. Energy-Saving Habits

- Turn off lights when not in use
- Unplug chargers and electronics
- Use natural daylight
- Set air conditioners to energy-saving temperatures

4. Education and Awareness

- Educate people about electricity conservation
- Organize school energy-saving campaigns
- Share energy-saving tips
- Encourage community participation

5. Government and Community Initiatives

- Offer incentives for energy-efficient homes
- Encourage off-peak electricity use
- Create community energy-saving challenges
- Promote energy-efficient building designs

Step-3: Idea Prioritization

4 Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

20 minutes

TP Participants can use their sticky notes to place their ideas on the grid. The facilitator can provide a card to help them decide which ideas to place on the grid.

Importance

Feasibility

High Importance, Low Feasibility

High Importance, High Feasibility

Low Importance, Low Feasibility

Low Importance, High Feasibility

Regardless of their importance, which ideas are more feasible than others? (Time, cost, complexity, etc.)

After you collaborate

You can export the mural as an image or pdf to share with members of your company who might find it helpful.

Quick add-ons

- Share the mural**
Share a view link to the mural with stakeholders to keep them in the loop about the outcomes of the session.
- Export the mural**
Export a copy of the mural as a PNG or PDF to share to email, include in a slide, or save to your drive.

Keep moving forward

- Strategy blueprint**
Define the components of a new idea or strategy.
[Open the template](#)
- Customer experience journey map**
Understand customer needs, motivations, and obstacles for an experience.
[Open the template](#)
- Strengths, weaknesses, opportunities & threats**
Identify strengths, weaknesses, opportunities, and threats (SWOT) to develop a plan.
